

## Why?

We are living on a land where so many children are born in war zones and chaos. Especially today, we see them more than ever in our daily lives and there is a huge refugee circulation. These children need to be fed at first place and community is doing its best on that. As a creative company, we wanted to help them by offering art and sound workshops, teach them simple tools to reflect themselves. This, we sincerely hope, will show and remind them that war, hatred and chaos is not the only way of being.

## How?

Rast Sound's all income from December will be used for this campaign. Moreover you can donate and/or send equipment to grow the event.

## What and where to send?

Inspiration is the keyword for the campaign. You may send any form of artwork or tool that stimulates inspiration.

Here is a list of things that we came up with,

- Art tools (Sets, kits, brushes, notebook, etc.)
- Artwork (prints, t-shirts or any other)
- Sound and music tools (equipment, instruments, etc.)
- Books (graphics based children books will work best)

Please keep in mind that these things should be practical and rather small in size. Do not limit yourself with the list and be creative.

Reach us through [submissions@rastsound.com](mailto:submissions@rastsound.com) to ask anything and to get the address.

We will return to you (whoever participate in it) by info and videos of what we have done.

More than anything, share the campaign page with your community!

Art transforms.

Spread the love.
