# OVERVIEW

Welcome to EthnoGroove!

EthnoGroove is a world music journey from Africa to Middle East, Balkans to India centered around fusion of organic recordings with programmed modern grooves. It offers loops, patterns, one shots and instruments, delivered in different formats.

The library is formed around 16 grooves (full mixes : beat/tonal) and full stems, so you can build your own creations from the ground up, either playing the stems on your Kontakt Instrument or chopping up and rearranging the wave files.

EthnoGroove is for anyone interested in a world music taste, soundtrack composers, fusion lovers, chill out & tribal edm producers and more.

We had a lot of fun making it, enjoy!

# CONTENT

EthnoGroove is for KONTAKT | WAV | AIFF

Total of 268 samples  
120 x 2 loops & patterns (Wav & Aiff)  
16 mixes & full stems  
28 One Shots
